President’s Message
By: Taline Arsenian, President

One of the most impactful ways you can influence public education is to VOTE! Casting your ballot in local, state, and federal elections is an important way to have a say in the decisions that impact the students we serve. Legislatures and other state officials can make or break policy, determine funding allocations, and require exams and costly district mandates. These decisions can directly impact our working conditions and affect the educational outcomes for our students.

Governor Newsom signed 83% of the bills ratified by California legislatures. Signed into law were AB 1505 (by Assemblymember O’Donnell) and AB1507 (by Assemblymember Smith), bringing much needed accountability and transparency to privately managed charter schools. These two new laws are the first changes to charter school regulations in California in 27 years. Governor Newsom also signed into law SB 328 (by Senator Portantino) which will require the adoption of school start times for middle schools to be no sooner than 8:00 am and for high schools to be no sooner than 8:30 am by July 2022. Governor Newsom vetoed AB 197 (by Assemblymember Weber), which would have required school districts with primary grades offer at least one full day kindergarten program. Also vetoed was AB 500 (by Assemblymember Gonzalez), which would have expanded maternity leave for education employees to allow for at least 6 weeks of fully paid maternity leave. Currently, maternity leave is paid by the District at half the daily rate of pay only after a member exhausts all of their banked sick time. Bills vetoed were categorized as not fitting into the 2019-20 budget structure.

Locally, the decision-making body for all topics pertaining to expenditures of the Glendale Unified School District, including employee wage increases, is the 5 elected school board members, who currently serve 4-year terms, sans term limits. Although, term limits are a topic that board member Shant Sahakian has worked diligently to bring to the agenda, in order to order to allow for a Glendale community vote. School board elections are districted by 5 regional areas. The next school board election will be held on March 3, 2020, which is the first-time school board elections will be aligned with primary elections. Two seats are up for election, one in district A, currently held by Jennifer Freemon and the other in district E, currently held by Nayiri Nahabedian.

The Glendale Teachers Association Bylaws allow for our union to have a Political Action Committee (PAC), which consists of 6 GTA elementary, middle, and high school members. Like I mentioned above, voting in elections is important to public schools. The GTA PAC Committee works hard to engage and inform Glendale voters in local elections. They represent the teacher voice at political events in Glendale to promote and educate our community about Glendale public schools. The GTA endorsement process includes an interview by the PAC committee. The committee makes recommendations to the GTA Board of Directors, which then recommends to the GTA Representative Council for final approval.

Election season is right around the corner. Please vote for, and promote to your friends and family, public education friendly candidates and measures. It is the most important and influential way we can all impact public education in our city, state, and nation.
Please mark your calendar or stay tuned for a TGIF to be thrown by your Area Director! This year we are hosting seven area focused TGIFs. Our hope is that members can enjoy unwinding and connecting with colleagues who teach in their elementary, middle, or high school cluster.

With the passage of SB 419, laws that restrict a principal from suspending a student for willful defiance will expand effective July 1, 2020. The legislation does not change a teacher’s right to suspend a student from class for the day and the following day, though. This change first became law in 2015, when AB 420 amended the California Education Code by removing willful defiance as a reason that a principal may use to suspend or expel a student in kindergarten through third grades. AB 420 expired on July 1, 2018, but was made permanent in last year’s budget legislation. With the passage of SB 419, the prohibition is permanently extended to fourth and fifth grades and will extend it to sixth through eighth grades until July 1, 2025.

Rights of a Principal to Suspend or Expel

A principal may still suspend or expel students for any of the reasons that are enumerated in Ed. Code Sec. 48900: causing physical injury, using force or violence (including hate violence), possessing firearms, firearm replicas, knives, explosives, drugs, drug paraphernalia or alcohol, robbery or extortion, damaging property, stealing, receiving stolen property, hazing, bullying (including electronic), use of tobacco or nicotine, habitual profanity or vulgarity, obscene acts, sexual harassment, sexual assault, harassing or intimidating witnesses, or making terroristic threats.

Students in fourth through twelfth grades may be suspended or expelled when a principal or superintendent “determines that the pupil has intentionally engaged in harassment, threats, or intimidation, directed against school district personnel or pupils, that is sufficiently severe or pervasive to have the actual or reasonably expected effect of materially disrupting classwork, creating substantial disorder, and invading the rights of either school personnel or pupils by creating an intimidating or hostile educational environment.”

The right to suspend or expel is not unlimited, though. The Ed. Code requires that other means of correction be used for a first offense, except when a student causes physical injury, causes a danger to persons, for possession of a firearm or other dangerous object, possesses, uses, or is under the influence of a controlled substance, or commits or attempts to commit robbery or extortion.

Students who receive special education services are subject to the same suspension rules as students who do not receive special education services, except that the suspension may not exceed ten days without an IEP “manifestation determination”, which is a formal procedure used to determine if a student’s behavioral issue was an expression of that student’s disability.

Rights of a Teacher to Suspend from Class for the Day and the Following Day

SB 419 does not impact a teacher’s right to suspend a student from class for the day and the following day due to willful defiance. Before suspending the student from class, though, you should document the use of other means of correction. Other means might include parent conferences, referral to support personnel, student study teams, PBIS, or restorative practices.
